CROSS REFERENCE TO RELATED APPLICATIONS

This patent application is the National Stage of International Application No. PCT/US99/02737, filed on February 8, 1999, which is a continuation of U.S. Patent Application No. 09/218,945 (now U.S. Patent No. 6,542,880), filed on December 22, 1998.

REMARKS

Applicants respectfully submit that the Specification has been amended herein. Further examination and reconsideration in view of the remarks set forth below is respectfully requested.

Specification

In connection with a Petition for Reconsideration of Dismissal of the Petition to Accept Unintentionally Delayed Claim Under 35 U.S.C. 120 for the Benefit of a Prior-Filed Nonprovisional Application Pursuant to 37 C.F.R. 1.78(a)(3), the Specification of the above captioned patent application has been amended herein to provide a proper chain of claim to priority from the present patent application to nonprovisional U.S. Patent Application No. 09/218,945 (now U.S. Patent No. 6,542,880).

CONCLUSION

It is respectfully submitted that the amended Specification herein provides a proper chain of claim to priority from the present patent application to nonprovisional U.S. Patent Application No. 09/218,945 (now U.S. Patent No. 6,542,880).

The Examiner is urged to contact Applicants' undersigned representative if the Examiner believes such action would expedite resolution of the present patent application.
